Yes it works. no crash or flaw right now. You feel a little bit like an astronaut in a simulator.

But there can be done a lot more here from the developers:

- A hud with information like oxygen and fuel charging level. As well helpers like a gyroscope. You can learn from the game "Lunar Flight".
- Resolution of textures are very low, when you come close to the vessels. Quite a pixel show.
- Player can't set the resolution at all.
- Some more interesting tasks, not only fly to a point and stay there.
- The Earth is spinning, when you fly over it with the shuttle in an orbit lower than 36.000 km. The shuttle and MIR were mostly in a lower orbit.
- Dialog loop too short, you hear it over and over again. More variety please.

I am sorry guys, can't recommend it in this state. Free to play but not pay to win!!, really interessting Idea for PvP and gameplay in generall, worth to check out cause its pretty fun :3. Very short but fun. I enjoyed the soundtrack and art style; hopefully, one day, I can make a similar successful game like this one c: Would play it if you enjoy a quick adventure with a peaceful environment (aka the music cause it is classified as a horror game lol). So what is it really?

A wargame, a parody, a board game, a computer game?

I've played computer war games since 1983 and never found one I fundamentally disliked as much as this game.

It fails to show respect to history, has no fog of war, and is not even funny.

Biggest waste of my recent gaming dollars.. this poker stuff is a truth or dare game in reality it is the psychological man made game and this will make or break you playing fake poker will teach to be a beast master also puts hair on your chest so to speak

I want to like this game, but the same strategy works on nearly every map. Slow them down, hit them with the big guns. Toss in a couple lasers for airplanes. Hellfire the final wave. Rinse and repeat.

Enemy variety comes in the form of airplanes or ground units. Ground units may look different, but the only real difference is how much health they have. All of the turrets are effective against all ground units, it's only a matter of concentrating the most damage into a small of a space as possible. Not all that hard since 6 of the 8 weapons hit multiple targets.

This is a very vanilla tower defense game. I won't say it's bad, but it's not that great either.. Very enjoyable, an essential part of a Dungeon Warfare & Orcs Must Die collection.. In the matching game (squares) Save after every match, load when you find a match. Only way to win.. Fantastic game.

Characters' animations are beautifully drawn. The metroidvania elements are properly thought out and the backtracking doesn't get tired after a while as each upgrade gives you even more mobility than the last (the last upgrade is rather bland though). The time stop mechanic is amazingly well-implemented and feels very fluid and fresh; easily my favorite thing about the game. Pulling off a proper **MUDAMUDAMUDAMUDAMUDA on an unwitting mob never gets old, nor does the knife acrobatics once you get some of the later upgrades.**

Boss fights are very engaging. All patterns, no matter how dense, are manageable one way or another and, like all great metroidvanias, incorporate game mechanics like "imbued" objects that behave differently when time is stopped (time stop is pretty much required to create openings to escape some of them).

On that point, the one thing I particularly liked about the game is that while time stop immunity does exist, there's only one arguably \u2665\u2665\u2665\u2665\u2665\u2665\u2665t sequence with a lot of immune enemies; what's more important is that none of the bosses and very few of their patterns are immune.

Combined with the risk-reward graze mechanics (which still work in frozen time, to some extent) and the fact that Sakuya's hitbox is actually smaller than her sprite (like in the original games), it really makes you feel like a god(dess) among maids, kicking\u2665\u2665\u2665\u2665\u2665and mopping floors. ZA WARUDO, \u2665\u2665\u2665\u2665\u2665es!

Make no mistake, though, the game is not easy - your powers may be broken, but your resources are finite, and refilling them requires getting very close and personal. For added clutch, if you want to heal, you can't ZA WARUDO either - you only gain HP from grazing if time is not frozen. God(dess) among maids or not, if you mismanage your MP or run out of TIME (pun intended), you die.

It's also a good Touhou game and is pretty faithful to the games - as per fangame tradition, the soundtrack consists of remixes of the originals which are good in their own right, the first and last stage themes are my personal favorites. The characters are well-written (though Sakuya does act stupid sometimes - has she never seen a phone in her life?), down to the memes like Patchy's ever-present asthma, Marisa "permanently borrowing" things and some soundtrack choices (I laughed like an idiot once I got to a certain final boss phase). No pad- *dodges knife -or JoJo references, though.*

If you pay attention, there are also surprising amounts of foreshadowing to the later plot twists (don't the 7 gems and their colors remind you of a... certain someone? What's Nitori even doing here, she's not related to the SDM? Why is she so insistent on you using her shop?)

The only real complaint about the game is that it's far too short, I can't think of anything else.

Otherwise the game is mechanically sound, flows very well and, like I said before, the time stop mechanic put a very refreshing spin on the genre. It's a great metroidvania and is very much worth the money even if you're not a Touhou fan. Definitely get it if you are a Touhou fan - I hate Sakuya but I absolutely loved this game.

Devs also promised an Extra stage and I expect nothing less but pain and suffering. They better

\u2665\u2665\u2665\u2665ing deliver.. This is NOT a game. It's a workout program, and you are gonna love it.

I will recomend this to anyone who are always making exhuses for not working out.

This is making workout fun. And i don't mean "I tolerant it" fun. But ACTUAL fun.

10 pain \ \ 10 gain. If you loved BA1, you will probably love BA2. Some enhancements, but generally more of what you came to the franchise for. I was concerned that being stuck on the Eastern Front would be unpleasant (everyone on Hogan's

Heroes seemed to think so), but it was actually interesting. While not the most technologically advanced group at the time, the Soviets were very innovative when it came to thinking up ways to stop the German advance. Molotov cocktails, tactical (prop-driven) snow-mobiles. Good times.. I cant use my joystick in the game...
